

Ratepayers Annual Meeting Monday

The annual meeting of ratepayers of the Town of Blairmore and Blairmore School District will be held in the main school on Monday, Feb. 9, at 8 p.m.

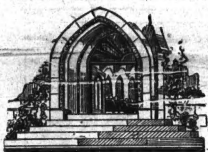

Reports of the Mayor, Secretary, Treasurer, Auditors and Chairmen of various council committees; as well as that of the School Chairman and committee chairmen, will be presented and scrutinized.

Particularly strict adherence to the cardinal rules of defence against disease is urged by medical authorities at seasons when there is possibility of catching such infections as flu, Frequent and thorough washing of hands is essential, as is use of clean eating utensils and sanitary drinking vessels. It is also wise to avoid such possible disease carriers as common towels to public wash rooms.

World Day of Prayer

The Women's Inter-Church Council has the honor to announce that Her Excellency, the Viscountess Alexander of Tunis has graciously consented to give the address on the Trans-Canada Broadcast in Connection with the observance of The World Day of Prayer, the broadcast to be on Feb. 12.

In Blairmore the Hour of Prayer will be held in the United Church at 3 p.m. Feb. 13. Women and girls of all denominations are cordially invited to attend.

"Serve the Church that the Church May Serve You."

CENTRAL UNITED CHURCH
BLAIRMORE
Rev. James McKelvey, Minister

Services Sunday next:
11:00 a.m. Senior school.
2:30 p.m. Junior school.
7:00 p.m. Public Worship.

Sees World Danger Unless Children Fed

Boys and girls in war-torn countries in Europe and Asia are today turning their eyes toward Canada as the opening day nears for the Canadian Appeal for Children, an appeal in which Canadians are being asked to contribute \$10 million to assist children whose lives have been blighted by war. The Appeal will start on Feb. 9 and on that day similar drives will get under way simultaneously in 26 other countries in the world as the "have" nations come to the assistance of the "have nots."

Backed by organized labor and industry in Canada and supported by charitable and service clubs—as well as women's organizations, church groups, farmers' co-operatives and cultural societies—the Canadian Appeal for children who have survived man's most determined efforts to kill them.

C. F. Fraser, chairman of the campaign operating committee of the Canadian Appeal for Children, has described the appeal as the most challenging of any appeals ever organized in Canada.

"Canada will reap credit—or shame—depending on the success of the Appeal," Mr. Fraser said. "More than 400 million children in Europe and Asia are slowly dying from hunger and freezing from the cold. Their need is urgent. Canadians may have a role in reclaiming half of the children in the world who occupy one-third of the world's area."

Food is high on the list of products which will be purchased in Canada and shipped overseas to feed the hungry children. Next comes clothing; then medical supplies. Nor is the Appeal being limited to the needs of the bodies.

"It may be truly said that the peace of the world during the next generation depends in large measure on the success of the Canadian Appeal for Children," Mr. Fraser said. "Children who are hungry and cold and diseased do not make happy citizens. Their bodily needs must be met. But unless they are taught to think for themselves, the threat of war remains an ugly shadow. To avoid war, its causes must be destroyed. Happy, intelligent people who have been trained to live with and respect each other are poor candidates for a war machine. We might well be saving Canadian boys and girls of tomorrow by saving the boys and girls of Europe and Asia today."

CONST. J. M. BRODIE
PROUD FATHER

Ottawa Jan. 31, 1948

Dear Roddy:
Enclosed you will find Postal Money Order covering subscription to June 1948.

I enjoy reading the paper each week, especially the local items, and wish there were more of them. Keep up the good work. I often read news in the Graphic that I don't find in the dailies down this way.

Am in the Finger Print Section now and enjoy the work very much.

Am also the proud father now with a boy, Ian Michael, born October 14, 1947.

There are a few of the other fellows here who used to be stationed at Blairmore, Narraway, Hough, Culbert and others.

Please keep the paper coming and will remit next June or so for the coming year.

As ever,

"Steve".

J. M. BRODIE.

Silly Sally asked the drugstore clerk for green lipstick because her boyfriend was a railroad man and green is the R.R. signal for "Go ahead."

Three Dead in Mass Bellevue Shooting

George Trifanenko Said Slayer of Wife and Walter Nibinsky; Mrs. Nibinsky in Hospital Critically Wounded.

Mass shooting at Bellevue early Thursday evening resulted in three deaths and one in hospital critically wounded.

The dead are George Trifanenko, 26, operator of Bellevue pool hall; Mrs. Frances Trifanenko, 23, wife of George; and Walter Nibinsky, 35, mine worker.

In Bellevue hospital lies Mrs. Helen Nibinsky.

The double murder and suicide took place between 7 and 7:30 o'clock at the Nibinsky home next door to the Bellevue Dairy and police investigations point to George Trifanenko as the killer.

According to the meagre details pieced together following the shooting, George, who had been living in Hiltner but working in Bellevue pool hall, walked into the Nibinsky cottage home about 7 o'clock and after an argument opened fire with a numerous fusillade. He used a .32 calibre pistol.

Walter Nibinsky grabbed a .30-06 rifle and fired over the assailant's head apparently to frighten him. But it didn't work. Walter was shot in the back, staggered to the street where he was assisted by bystanders to the Union Hall where he died a few minutes later. He had the gun in his hand.

Mrs. Nibinsky also escaped from the house although wounded. She went to the house of Dr. Wolff which is nearby and later was removed to hospital. She was still alive late Friday afternoon.

Bodies of George and Frances Trifanenko were found inside the house, both shot through the head. Police be-

lieve George's wound was self-inflicted. It is understood the Trifanensos were estranged and living apart for about a week.

The RCMP detachment at Blairmore was notified immediately and officers were soon on the spot starting investigations into the affray, said to be one of the worst mass killings in Alberta's crime history.

Coroner Donald MacPherson, of Blairmore, called to the scene of the shooting, ordered an inquest which will open tonight at 7 o'clock.

Meanwhile, in hospital here, the wounded Helen Nibinsky is not expected to live. It is understood she is receiving blood transfusions.

Both women involved in the shooting are daughters of Wasy Ponich, of Bellevue. The Trifanensos are survived by three young children: Mike, a son and Sharon and Linda, daughters, and Walter Nibinsky by a daughter, Gloria, his mother living in Edmonton, a brother near Edmonton, a sister at Winnipeg and a sister, Mrs. Cavell of Bellevue.

Dr. S. E. Epstein and Dr. R. G. Wolff of Bellevue were called on the case.

Domestic trouble is believed to have been the cause of the shooting. A summons was served on Trifanenko to appear in the home of his mother-in-law to answer a charge of assault, who it is alleged to have slapped his paralytic mother-in-law as she lay in bed.

When he received the summons, he is said to have gone berserk, using a .32 calibre pistol on his relatives and himself.

Alberta Red Cross to Meet at Lethbridge

The Editor of "The Graphic", Blairmore, Alberta.

Dear Sir:

The Annual meeting of the Alberta Division of the Canadian Red Cross Society is being held in Lethbridge on February 27, 1948 in the LOOPE-Hall (corner of 5th St. and 4th Ave. South) with registration of delegates at 9:00 a.m. The meeting begins at 9:30 a.m. Lt. Col. Tomlinson, Commissioner for the Alberta Division has informed us that the preliminary notice of meeting is in the hands of all members of the provincial council and to the secretaries of the branches. The usual notice of meeting will be mailed shortly.

Since this is the first time that an annual meeting of the Alberta Division of the Canadian Red Cross Society has been held outside Calgary or Edmonton, the Lethbridge Branch is very anxious that meeting be a success. Therefore we are asking the editors of all newspapers in Southern Alberta to give us the usual splendid support in their papers that they accord all meetings which reflect credit and are part of the life of the people of Southern Alberta.

N. S. CENTENARY

"On Feb. 2, Nova Scotia marked the centenary of her responsible government, the first such government established in the British empire overseas."

Full recognition of the anniversary takes place when the Nova Scotia legislature opens in March and a plaque commemorating the event will be unveiled in the red chamber.

The A.T.A. Surveys Education Scene

Urging parents to "look well to your schools," the Alberta Teacher's Association this week described rural school buildings as "educational slums" and scored a general lack of adequate library facilities.

Listing the faults in the present Alberta educational set-up, the ATA emphasized a situation in 600 classrooms where "unqualified persons" were in charge. Other faults found, education in Alberta included:

The average Alberta teacher has only 1.4 years of experience and is paid \$1,401 per year; in the cities only 33 teachers of every hundred have University degrees; teachers cannot be trained fast enough to replace those leaving the profession; the worst looking building in many communities is often the school; some Alberta schools haven't had a new library book for 35 years.

Scanning the teaching statistics in the province the ATA reported that 12 per cent of city school teachers stay on the job for less than a year, while in the country the percentage is as high as 66. Less than 50 per cent of city teachers remain at their original schools for over 15 years. Less than 1 per cent of rural teachers stay that long. Average length of service for teachers with the same school board is two and a half years.

In connection with CGIT week the service at Central United church Sunday evening will be of a special nature, with two girls giving short talks during the service, and the girl's choir in attendance. You are cordially invited to be present.

Alberta Liberal Leader To Speak Here Tuesday

J. Harger Prowse, M.L.A., newly elected leader of Alberta Liberal Party, will visit the Pass on Tuesday of next week, Feb. 10, and will address a public meeting in Columbus hall at Blairmore that evening at 8 o'clock. He will be accompanied by several from Pincher Creek, including Frank Holmes, president for the Pincher Creek-Crow's Nest Liberal constituency, and Harvey Bousenberry, ex-M.L.A.

Mr. Prowse is one of the three members elected to the Alberta Legislature to represent the Armed Forces at the last election. His honest and sincere efforts in the public's welfare has earned him quite a reputation and his ability was recognized when he was offered the leadership of the provincial Liberal party, which he accepted.

He is being warmly received at all his meetings, in both city and town, and no doubt citizens of the Pass will listen with interest as he outlines the new Liberal party platform.

Separating the Men From The Boys

(Calgary Herald)

When does a boy become a man? Most people would say: "When he's 21 years of age." But the wise men who write our federal and provincial laws have never been able to make up their minds about it.

So far as labor legislation is concerned, a youth becomes a man at 15. At that age he can accept a full-time job. He may legally buy cigarettes, cigars or tobacco at 16. He may obtain a driver's license at 16, with his parent's consent. Otherwise, he must wait until he is 18. He may also obtain a marriage license at 16, with the consent of both parents; at 18 with the consent of one parent. At 21, he need ask no one's consent except the bride.

The federal government can draft him for military duty at 18 years, but he must wait another year to vote in provincial elections, and three more years to vote in either civic or federal elections. At 18, if he chooses, he may attend motion pictures shows "for adults only." At 21 years he may enter a beer parlor or buy liquor.

Obviously, then, he is part boy and part man in the eyes of the law, from the time he is 15 till the time he is 21. In most of the instances cited, no particular confusion arises. But in the matter of his right to vote and his right to buy liquor and beer, the law is at odds with itself.

For example suppose that Calgary, in the position of young soldier, were a "dry" town under provisions of local option, and that interested citizens demanded a vote on the question should be permitted. A youth of 19 (a man in the eyes of the provincial law) could vote in such a plebiscite. But if beer parlors were permitted he could not enter them.

Just such a problem has arisen in Saskatchewan where the voting age is 18 years. The town of Sutherland, near Saskatoon, is to have a plebiscite on beer parlor licences. It has a number of 18-year-old voters who cannot enter beer parlors. Are they or are they not, entitled to vote in the plebiscite? The Sutherland council is in a quandary.

There seems, too, an obvious absurdity in the position of young soldiers being barred from beer parlors, yet being entrusted with defence of the country. We are not arguing that 18 is a proper age to be given the right to consume beer, but we do suggest that some uniformity is desirable. The Dominion government says a man is old enough to risk his life at 18. The province says he is mature enough to

To Meet 1st Sunday of Month; Set Yearly Dues

Well folks here I am again reporting a very well attended meeting, considering that "Old Man Winter" once more blew his chilly breath this way. However, this was quickly dispensed with once inside our sanctuary with the warm greetings and friendly smiles of our comrades. Of course our indispensable advisor, Mr. Rees, was there. If he turns up at our next meeting he will be gratefully welcomed. We ladies just love having that man Glyn around.

It was decided that we hold regular meetings the first Sunday of each at one-thirty in the afternoon. We certainly would like to see some more eligible women turning out as the success of our Auxiliary will depend on the number of members we enroll. What with a Sick committee, Entertainment committee, Financial committee, etc., we will have something for everybody to do if they close to get in there and pitch: also the aim of \$1 that was set for yearly dues no doubt was a relief to the majority in these trying times.

Now for a little explaining of that word "eligible". In this case it means the wife, mother, daughter or sister of any man who has donated the King's uniform. Already I have heard some contrary remarks made about some women being in active positions when their husbands have only been drafted and not been overseas. Please ladies, let's get this straight once and for all. Drafted or not, if a man was in the forces he is an active member of the B.E.L. and I have never heard of anyone getting into service without being presented with a uniform to wear.

Yours truly was appointed Press Correspondent—why I'll never know. I still say, figuratively speaking, one has to be born with a pencil in one's hand. I didn't even have fingers nailed when I was born. So you see folks, anything you might read from time to time (and I do mean anything) concerning our Ladies Auxiliary will be my own opinion and not necessarily the opinion of the members or of this paper.

Thank you.—Isa Evans.

PREVENTION AND CURE

Recalling the ages during which the sick were treated as objects of horror and disease was shunned, public health authorities at Ottawa stress the modern approach to illness, study, treatment, and, most of all, prevention, where possible. Since most diseases can be cured, the department of national health and welfare reminds Canadians that prompt medical attention is the answer to disease. The department also issues a reminder that the more we forestall disease, the less we will have to cure it.

Friend: I think your husband dresses nattily?
Blairmore wife: Natalie who?

Sue: What kind of a dress did you wear to the party?

May: Oh, my dress was checked.
Sue: Checked? What kind of a party was it?

Fortune teller: You are about to be discovered by a big movie producer and will soon be a star.

Mamie: But that's the same thing you told my friend Rosa.

Fortune teller: I can't help it. You girls won't be satisfied with anything less nowadays.

vote at 19. But neither will let him take a drink of beer until he is 21—by which time he may be a respectable married man with four sturdy children.

Progress In Research

RECENT PROGRESS IN SCIENTIFIC research in Canada was outlined in the year-end review of the National Research Council, made public at the end of 1947. At a time when the products of Canadian farms and factories are in demand at home and abroad, it is interesting to know that the Research Council is constantly carrying on investigations into new possibilities of applying the results of scientific research to industry. Problems now being dealt with by the staff of more than 2,300 workers in the various laboratories of the council, include those related to food chemistry, refrigeration, radar, aircraft, motion pictures, heating lubrication, textiles, rubber, construction and industrial processes.

In addition, there is the important work being done in the new field of atomic energy, in which radio-active materials are being produced to be used in medical and industrial research. An outstanding development in this field has been in connection with the work of Dr. J. W. Spinks of the University of Saskatchewan, and formerly with the staff of the atomic energy plant. By the use of radio-active materials Dr. Spinks has found out a great deal about the growth of wheat plants and has added much to the farmer's knowledge of this important subject. Work is also being done by scientists of the research council on refrigeration storage of meats, the processing of dairy products and of liquid and dried eggs, and on the production of anti-freeze and other useful materials from low grade wheat and surplus crops.

Dr. C. J. Mackenzie, president of the council, suggested recently that at least one per cent. of the national income should be spent on scientific research. He further suggested that half of this might be supplied by the government and the rest by Canadian industries, in furthering the applications of science to the processing of our raw materials. Rt. Hon. C. D. Howe stated not long ago that Canada is now making more than 200 products which had never been made here prior to the Second World War, and he added that there are few manufactured products which cannot be produced as cheaply in Canada as anywhere in the world, assuming that there was an adequate market for them. Experience has already taught us that science can be of great practical value. If we are to continue to advance, and to solve the new problems which constantly arise in production, whether in connection with agriculture or in our factories, it is apparent that scientific research is necessary. The National Research Council is contributing a great deal to industrial development in Canada now, and it is to be hoped that it will have the means to continue to expand, and to provide producers with new knowledge and improved methods for preparing Canadian goods for market both here and in other countries.

Quickly Relieves Distress of
Sneezy, Stuffy
Head Colds

A little Va-tro-nol on each nostril relieves snuffy, stuffy, sneezy, watery, itchy, and sore throats, and makes breathing easier.

Also helps prevent many colds from developing if used in time. Try it! You'll like it! Follow directions in package.

VICKS VA-TRO-NOL

Saskatchewan Weeklies Choose Convention Date

The Saskatchewan division of the Canadian Weekly Newspaper Association annual convention will be held Aug. 5 and 6, in Hotel Saskatchewan, it was announced by Walter Ashfield, secretary-manager of the association. The date was arranged at a meeting of the executive.

Attending the meeting were: S. J. Doran, Alameda, president; T. E. Scrivner, Wolsley, vice-president; W. Ashfield, Grenfell, secretary-manager; Gerald Humphrey, Nokomis; A. Book, Battleford; George Lancaster, Melfort; E. G. Quick, Weyburn, past president.

PREDICTS GOOD TRAPPING IN NORTHERN MANITOBA

THE PAS, Man.—Trappers in northern Manitoba are in for a period of prosperity. At least, that's the view of D. M. Sheen, the assistant manager of mines and natural resources for Manitoba.

The deputy minister told the Rotary club recently that returns from beaver alone would mean average from \$400 to \$1,000 for every trapper in this section. He also predicted that the beaver population would double or treble within two to five years.

To Feel Right — Eat Right

ITCH CHECKED in a Jiffy — or Money Back

For quick relief from itching caused by eczema, athlete's foot, scabies, dandruff and other itching conditions, use **ITCH CHECKER**, medicated, liquid skin cream. Itches, rashes, and other skin conditions. Soothes, comforts and quickly calms intense itching. Don't rub! Rub gently. Money back today for **Dr. B. D. FLEISCHMANN'S**.

RECENT TEST PROVED this simply great to relieve 'PERIODIC' COMPLAINTS

with uncomfortable fullness

Are you troubled by distress of female functional monthly disturbances? Does this make you suffer, feel nervous, restless, cranky, weak, sick, tired? Then do try **LYDIA E. PINKHAM'S VEGETABLE COMPOUND** to relieve such symptoms.

In a recent test it proved very helpful to women troubled this way. You use it as you would any other medicine.

Lydia E. Pinkham's VEGETABLE COMPOUND

Planes Drop Grain For Pheasants

WINNIPEG.—Game birds in southwestern Manitoba have not been forgotten this cold and wintry weather, as grain is being dropped from an airplane to provide food for them. Through the efforts of members of the Mollie and Fish association, G. Serafin, game guardian of Virden, has been flown over the Souris district by C. Reddaway to drop grain for the pheasants. The grain was packed in paper bags about 10 pounds to a bag, which broke when striking the ground.

GEMS OF THOUGHT

INDUSTRY

In the ordinary business of life industry can do anything which genius can do, and very many things which it cannot.—H. W. Beecher

What men want is not talent; it is purpose; in other words, not the power to achieve, but the will to labor.—Bulwer-Lytton

The darkest hour in the history of any young man is when he sits down to study how to get money without honestly earning it.—Horace Greeley

When a young man has conversed with many wise men, Epictetus made answer, "And I with many rich men, but I am not rich." The richest blessings are obtained by labor.—Mary Baker Eddy

A man who gives his children habits of industry provides for them better than by giving them a fortune.—Whately

Application is the price to be paid for mental acquisition. To have the harvest we must sow the seed.—Gammal Bailey

Made It In Reverse

DUQUOIN, Ill.—Dr. G. H. Gutridge got a hurry-up call from the hospital and rushed to the garage to get his automobile. After he backed his car out of the garage the gearshift got stuck and Dr. Gutridge drove the six blocks to the hospital—backwards.

Benjamin Franklin forecast the use of parachute troops.

FUNNY And OTHERWISE

"I hear you're related to our wealthy parishioner?"
"Distantly."
"How distant?"
"As far distant as he can keep me."

Watching the doughnut-making machine in the window, the golfer sighed: "How easily it makes a hole-in-one."

"I am going to kiss you before I go," said the young man who had outstayed his welcome.
"Do it now while I'm still young," replied the girl, wearily.

What is a budget?
Well, it is a method of worrying before you spend, instead of afterward.

Movie Star: "I've decided to demand a new trial."

Interviewer: "But why? You won the case."

Star: "I know, but I'm not satisfied with the publicity."
Joan had been naughty. When her mother was putting her to bed she said, "When you say your prayers, Joan, ask God to make you a good girl tomorrow."

With his twinkling glasses, Jess said, "Why? What's on tomorrow?"

Two sweet young things were discussing affairs of the heart.
"So you've accepted Tom?" said one acidly. "I suppose he didn't happen to mention that he had previously proposed to me."

"Well, not exactly," replied the other blandly; "but he did confess that he'd done a lot of silly things before he met me."

A very small boy arrived home dejectedly from his first day at school.
"I'm not going tomorrow," he announced.

"And why not?" challenged his mother.
"Well," he replied, "I can't read, I can't write, they won't let me talk—so what's the use?"

The weary father was marching up and down at 1 a.m. with a walling infant in his arms, when there came a knock at the door. It was the tenant from below, carrying a pair of new shoes.

"I say, old man," he said, "while you're about it, you might break these in for me."

He was in deep disgrace, and, true as he would, he could not get a smile out of his wife at breakfast.

"Are you cross with me because I came home with a black eye last night?" he asked in desperation.
"No," replied his wife, tersely, "you hadn't got it when you came home."

One of John's best friends had died, so he called on the widow to express his sympathy.

"Jim and I were friends," he said. "Isn't there something I could have as a memento of him?" She raised her velvety brown eyes, which a few seconds before had been wet with tears.

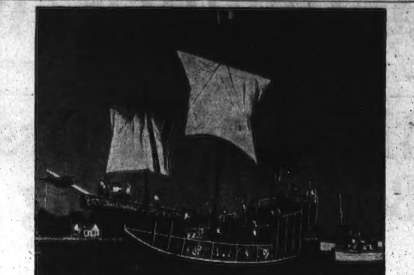

"How would I do?" she murmured.

ELECTS CIVIC BODY THE EASIEST WAY
SHEDIA, N.B.—They still go through the motions of filing nominations but there hasn't been a civic election in this French-English settlement for almost 30 years.

The two language factions do it their own, calm way. They just name a slate of citizens to get together. They talk things over, and decide who's going to run the town.

They have done it again and returned French-speaking Mayor Joseph E. Leblanc and his 1947 council.

A new spice is a blend of cinnamon, nutmeg and other spices especially dedicated to apple pies. 2702

PONCE DE LEON'S SHIP RECONSTRUCTED—If Ponce de Leon returned to earth and saw this ship, he would think he had not died 400 years ago. It's an exact model of the vessel in which he crossed the Atlantic in 1492 and discovered Florida. The ship was built for \$12,000 as part of a Florida pageant.

Says Auto Bonspiel Will Wear Out If Too Many Held

WINNIPEG.—Canadian Curling Associations may take a dim view of it, but Grant Watson of Winnipeg, winner of the recent Nipawin, Sask., automobile bonspiel and twice member of Canadian championship rink, says the Nipawin "spiel is 'tougher' than curling for the Canadian title.

Quizzed by Scotty (Winnipeg Free Press) Harper, Watson explained that while there were 121 rinks entered in the Nipawin affair not more than 10 of them were capable of winning the cars, but six of these 10 were from Winnipeg.

Harper said the Nipawin "spiel made money this year, with more than \$5,000 coming in through broadcasting rights while good crowds watched the games each day.

Although the idea of a "commercialized" bonspiel was frowned on by various curling associations, no move was made to halt the proceedings.

But if rumors are correct that other cities and towns are talking of putting one on, that type of bonspiel will wear itself out.

"If we get too many of these affairs that will kill it," Watson told Harper.

Anyway, Nipawin officials are going right ahead with preparations for their third annual "spiel, with ideas of increasing prizes which this year totalled around \$25,000.

OLD COURT DRESS FOR PROVINCIAL ARCHIVES

VICTORIA, B.C.—A full court dress, worn at three coronations of British sovereigns, has been presented to the provincial archives.

Of embroidered satin with crimson velvet kirtle and robe edged with miniver and coronet, the dress was worn by the late Viscountess Churchill at the coronations of George VI, Edward VII and George V.

Mrs. H. R. Beaven, sister-in-law of Viscountess Churchill, presented the gown to the archives. The viscountess was the daughter of Hon. Robert Beaven, B.C., premier 1882-83.

There are more injuries in baseball than any other sport.

Expect To Complete All-Weather Highway To Yellowknife Area

When Road Is Finished It Will Usher In A New Era For Northwest

EDMONTON.—A \$4,000,000 highway, started in the summer of 1946, and expected to be completed this year, will usher in a new era for Canada's northland.

Only 75 miles of road remain to be completed in the Grimshaw-Hay River highway. This all-weather road stretches for 385 miles along the bank of the Hay River, through a wilderness of forest and boulders between Grimshaw in the Peace River country and Hay River post on the south shore of Great Slave Lake.

When the highway is officially opened next August Yellowknife and adjacent mining areas will be served for the first time in history with a first-class gravelled highway over which heavy freight and supplies may be shipped the year round from Edmonton and other north-country supply depots.

One of the wettest summers in northern history held back scheduled progress of the work last year. It had originally been planned to complete the highway before freeze-up. The permafrost problem, one that plagued United States army engineers while building the Alaska highway and the Canal pipeline road entered the picture in this highway too.

Frozen Ground
Permafrost is the portion of ground that remains permanently frozen in the far north from varying depths up toward the surface. Building roads by ordinary methods employed in settled sections of the country is of no use in the Arctic and sub-Arctic regions. The problem was solved by building the road up from gravel and building the road up from gravel and building the road up from gravel.

The Dominion government is bearing the \$2,000,000 cost of the highway from Hay River post to the Alberta boundary, a distance of 81 miles. The federal and provincial governments are sharing the remainder of the cost.

Claimor for construction of a permanent highway that could be used the year-round for serving the needs of expanding northern mining projects began when the war ended. Development in gold and uranium fields proved that the highway was not an idle wish but a necessity.

The road transverses a country that is rich in timber and also in turquoise. It is expected that in addition to serving the northland, it will prove popular with tourists.

QUITE A RECORD
MONTREAL.—Mrs. Caroline Phillips has stood guard over a Salvation Army Christmas kettie on busy St. Catherine street here for the last 14 winters. This wouldn't be a novelty—except that Mrs. Phillips has five great-grandchildren.

CONTINUOUS LINE
When moving to a feeding place, certain caterpillars, known as army worms, proceed in a line with the head of each touching the tail of the caterpillar in front.

FREE!
NYLON STOCKINGS
Ladies, would you like to receive a pair of lovely nylon stockings, absolutely free? Then answer this simple question: "What is the birth Stone for February?"

Send your answer together with your name, address and a wrapper from an empty package of DYE-OL-A-DYE, or a reasonable facsimile, to Johnson-Richards Ltd., 31 Church St., Toronto. Specify the size of stockings you prefer.

A winning entry will be selected every day during February. Winners will receive one pair of nylon stockings if they are wearing DYE-OL-A-DYE, or facsimile, is enclosed; two pairs of stockings if two wrappers are enclosed; three pairs of stockings if three wrappers are enclosed and so on. Contest closes February 28. You may send as many entries as you wish but each must be accompanied by a DYE-OL-A-DYE wrapper or facsimile.

DYE-OL-A-DYE is on sale at most drug and grocery stores. PRICE: 100 PER PACKAGE. There's more better.

CIGARETTE TOBACCO

New... for fast baking

...keeps in the cupboard!

No more dashing down to the store at the last minute! Now—with New Fleischmann's Royal Fast Rising Dry Yeast you can bake any time—in quick time. This new granule form needs no refrigeration—keeps fresh in the cupboard for weeks, always right there when you need it. You can depend on it for quick baking—delicious baking results. IF YOU BAKE AT HOME—order a month's supply of New Fleischmann's Royal Fast Rising Dry Yeast today.

WORLD HAPPENINGS

BRIEFLY TOLD

One week's potato ration—three pounds—was one of the wedding presents received by a couple at Salisbury, England.

Jan Mikulski has been appointed Polish ambassador to Canada. Mikulski, a 43-year-old economist, has no party affiliations.

The Czechoslovak Cabinet has voted to ask the United States for radioactive isotopes for medical use, an official source disclosed.

Korea greeted the United Nations Commission with a huge rally in Seoul attended by an estimated 75,000 spectators, mostly right wing youth groups.

Earl Mountbatten will definitely relinquish his appointment as governor-general of India in the third week in June. It was a matter of understanding from government house.

A grimy painting purchased for a few pounds in 1820 sold at auction in London for \$3,570 (\$14,280) when dealers recognized it as by Peter de Hooch, 17th century Dutch artist.

The Postal Workers' Brotherhood has adopted a resolution supporting the Civil Service Federation in its campaign to seek additional remuneration to meet the rising cost of living.

Lady Elizabeth Clyde, 29-year-old daughter of the Duke of Wellington, was fined \$288 for evading currency restrictions by cashing sterling cheques during a holiday in France last summer.

FARM ACCOUNT BOOK AVAILABLE

How much may a farmer claim for depreciation in his farm equipment? This is but one of several questions that is simply and clearly answered by a new Farm Account Book now available at all Post Offices.

The new book provides an easy way to keep farm records of receipts and expenses connected with farm operations. Every farmer knows what it is to have a feeling that somewhere along the line of his yearly operations his profits are not what they might be. And he is usually the first to admit, too, that without accurate records it is impossible to find out just where he is losing money.

Keeping records becomes an easy job with this Farm Account Book. Complete forms are provided for every type of transaction and only a few minutes are required each week to keep accurate records. Expenses for feeds and seeds, cash and board for hired help, sales of livestock, grain and other farm products—these are all included. To make the Account Book even more helpful each of the forms provided is numbered to correspond with the items on Income Tax Returns. This enables the farmer to take full advantage of all the deductions and exemptions he is allowed by law.

A free copy of this Farm Account Book is available for every farmer at his local post office.

SELECTED RECIPES

CORN MUFFINS

- 2 cups sifted flour
- 4 teaspoons baking powder
- 1½ teaspoons salt
- 6 tablespoons sugar
- 1½ cups corn meal
- 2 eggs, well-beaten
- 1½ cups milk
- ½ cup melted shortening

Sift flour once, measure, add baking powder, salt, and sugar, and sift together into bowl. Add corn meal and mix well.

Combine eggs and milk. Add to flour mixture, add shortening, then mix only enough to dampen flour. Bake in greased muffin pans in hot oven (425 deg. F.) 20 minutes, or until done. Makes 18 large muffins.

PURPLE RIBBON CHOCOLATE CAKE (8 eggs)

- 2 cups sifted cake flour
- 1½ teaspoon salt
- 1 teaspoon soda
- 1 cup boiling water
- 3 squares unsweetened chocolate
- 1 cup shortening
- 1½ cups sugar
- 8 eggs, well-beaten
- ½ cup sour milk or buttermilk
- 1 teaspoon vanilla

Sift flour once, measure, add salt and soda, and sift together three times. Add boiling water to chocolate and stir until chocolate is melted.

Cream shortening, add sugar gradually, and cream together until light and fluffy. Add eggs and beat well, then add chocolate mixture and blend. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (350 deg. F.) 30 minutes, or until done. Spread frosting between layers and on top and sides of cake.

*You may substitute corn syrup or honey for half of sugar. Use ½ cup of each; decrease milk to ½ cup.

Forests occupy 30,000 square miles of territory in Norway. 2702

A BELL FOR BURLINGTON, BUT NO RINGER—Silent since November, town bell at Burlington, Ont. located in fireball, may ring again. Women's committee has asked that a belfringer be appointed. Four times daily for 50 years, Burlington's bell told residents the time and children were taught to obey it, sending them home for meals. Mrs. B. Nault pulls bell rope.

Heavy Loads Drawn Over Alaska Road

Oil Refinery Equipment Being Removed From Whitehorse To Leduc

EDMONTON.—The heaviest motor vehicles in Canada have been rolling night and day along 919 miles of the Alaska Highway between Whitehorse, Y.T., and Dawson Creek in British Columbia this winter. They are a vital link in a transport chain that is lifting a 7,000-ton oil refinery load, stock and barrel from Whitehorse, where it was built for the United States army 1,350 miles to the rapidly developing Leduc oil field just south of Edmonton.

Manned by two drivers—who work in shifts to keep the vehicles constantly in motion—these dreaded haulers of the highway have 21 forward speeds and weigh 20 tons empty. The tortuous Alaska Highway will not support their crunching weight of 60 tons fully loaded until late in the winter when the roadbed is frozen solid.

When Imperial Oil Company officers discovered that buying the refinery and moving it to Leduc would enable them to go into production 18 months sooner than if they built a brand-new one, they decided to bring the mountain to Mahomet. They paid \$1,000,000 for the "war surplus" plant, which covered close to 100 acres, and before they'd done it cost something like \$7,000,000—just about the price of a new plant. It's a case of overcoming post-war shortage of materials.

Fakes Steady Nerves
A Los Angeles contracting firm stepped in to handle the transport job. By late November, company officials reported that 80 per cent of the refinery was dismantled and 35 railway cars had made the trip from the truck-to-rail transfer point at Dawson Creek to the new 360-acre site on Edmonton's outskirts.

About one-half of the 270 men working on the project are preparing the new refinery site. Ninety are dismantling at Whitehorse and 40 are employed on the spectacular trucking operation.

When freeze-up permits hauling of the heaviest loads, company engineers will face a tricky problem at the 3,000-foot wooden bridge that crosses an arm of Teslin Lake, 115 miles south of Whitehorse. The bridge just won't take 60 tons, so the engineers are going to make an "ice bridge". They will build another thickness of ice on what's already there, by alternate flooding and freezing—the same way a rink is made. When the ice is thick enough, the 60-ton trucks will roll across.

Ducks Organize Eight-Hour Shift

RIVERSIDE, Ont.—A flock of ducks, fearful of seeing the last bit of water frozen over, has been working in shifts here to keep ice from forming on a 15-foot square pond in this Windsor suburb.

The pond is a swelling of a water-filled ditch on Riverside Drive, opposite a seed grain company.

Every eight hours a group of eight to 12 ducks takes up the job of swimming in the open water, relieving the previous eight-hour shift. By so doing, the ducks keep the water constantly in motion, and break up ice scum as it forms.

Their strategy works, too, because every other pond is frozen over.

DISCUSSES PROBLEM OF SENDING ROCKET TO MOON AND RETURNING

TORONTO.—The main problem in space travel is elementary—it's getting back safely.

Dr. J. A. Campbell of Edmonton, mathematics professor at the University of Alberta, speaking to the Royal Astronomical Society of Canada, said: "Before you take off on a rocket flight to the Moon or Mars, first demonstrate your ability to get your space-ship outside the earth's atmosphere, manoeuvre it there and then return safely to earth."

U.S. army officers also had made calculations for dispatching a pilotless rocket to the Moon. The trouble was that a speed of seven miles a second is probably necessary to escape the earth's orbit, and best developments of the German V-2 rockets were no faster than one mile a second.

Another problem, of course, would be to get the rocket ship back to earth after it had allegedly reached the Moon and still another problem would be to get it to talk or make some other kind of report when it did get back.

Perhaps the scientists could send a man to the Moon—but could they bring him back?

\$20,000,000 Tractor Order From U.S.A.

A United Kingdom firm has received a \$20 million order for agricultural tractors for the U.S.A., the biggest single order yet recorded in Britain's export drive. The first shipment was made this month and subsequent deliveries are scheduled at a weekly rate valued at \$500,000 until the order is completed.

PRINCESS ELIZABETH WILL NOT TRAVEL THIS YEAR

LONDON.—The Daily Graphic reported that Princess Elizabeth and her husband the Duke of Edinburgh "will decline all official invitations to visit the British Commonwealth and the United States" during 1948. The newspaper did not give its source of information.

The German V-2 rocket bombs travelled over 3,600 miles an hour.

Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

VITAMIN C

Because of the fact that a source of vitamin C is readily available in citrus fruits, the Canadian public perhaps has generally failed to realize that there are other sources of this vitamin which is necessary in any diet. It is stated in Health News, member publication of the Health League of Canada.

For instance, there are three domestic vegetables which are relatively cheap and available throughout most of the year—potatoes, turnips and cabbage—which contain vitamin C. These three, if properly prepared and properly cooked, can be used to supplement any other vitamin C source.

It is estimated that 3½ ounces of raw cabbage, or properly cooked turnips, or properly cooked potatoes, each contain more than one-half the estimated daily vitamin C requirement of an adult. It would be well to remember, however, that there is less in vitamin content in these vegetables during winter-long storage.

Other foods, in quantities of 3½ ounces, which contain enough or more than enough vitamin C to take care of a person's estimated daily requirement include cooked black currants, red and green peppers and raw parsley. Others which contain at least half the estimated daily vitamin C include liver and canned strawberries. Tomato juice and canned raspberries also are fairly good vitamin C sources.

It should be remembered, however, that overcooking and mashing largely destroys the vitamin C content of foods. This particular vitamin is soluble in water and oxidizes when it comes in contact with air. For instance, potatoes should be cooked with their skins on—cabbage should be eaten raw or cooked with a minimum of water for a minimum length of time—and turnips should be cooked for only 20 to 30 minutes if a reasonable portion of the vitamin C is to be retained. All vegetables should be placed in boiling water—not in cold water and then brought to the boil.

Much more of the vitamin C content will be retained if cooking is done with a pressure cooker.

CHILDREN RESPOND TO FREE HOT DOGS—Free chocolate milk and hot dogs to all contentants at ice carnival in Central park, Edlington, Ont., brought so many youngsters into the races that events had to be run off in relays. More than 1,500 children attended and at night 500 grown-ups turned up. Here is Mari-Lyn Buschlen, who wore her Polish costume.

be eaten raw or cooked with a minimum of water for a minimum length of time—and turnips should be cooked for only 20 to 30 minutes if a reasonable portion of the vitamin C is to be retained. All vegetables should be placed in boiling water—not in cold water and then brought to the boil.

Much more of the vitamin C content will be retained if cooking is done with a pressure cooker.

QUEER TITLES

Henri Christophe, Negro slave, who later ruled Haiti, from 1811 to 1820, created the Count of Lemonade and the Duke of Marmalade as two titled members of his "nobility."

Need for hand cleanliness is the sub-
ject of a bulletin issued by the depart-
ment of national health and welfare. It
isn't only a matter of decency, but of
vital health concern, say the doctors,
for bacteria inevitably collects on the
hands and is readily transmitted. "It's
sheer self-preservation to keep hands
and nails clean," declares a health
authority, "for disease can spread ra-
pidly from the germs they may har-
bour."

DO IT NOW

Yesterday has gone forever.
Tomorrow never comes.
If you put off and postpone today's
duty or obligation, you will increase
tomorrow's burden.

Neglect a single task today and
you add to wasted yesterdays.

It is today's tasks completed that
prepares you for tomorrow's achieve-
ments.

Make the best use of your time to-
day and you will be wiser and yes,
wealthier than you were yesterday.

When you loaf along, skipping to-
day's tasks, you don't cheat your boss.
You cheat yourself.

Never permit a single day to pass
without learning something new about
your work or the business which you
happen to be engaged in.

Each day resents "problems, new
tasks and new responsibilities. Neglect
them today and tomorrow you'll
find yourself left at the post... or...
on the outside looking in. Get this
fact fixed firmly in mind. You are
working for yourself, your boss or job
is only incidental. It is you and you
alone that counts and on which your
future depends.

Never put off until tomorrow what
you should do today. If you will do
today's job today, you'll always be
ready for tomorrow's opportunity.

Mrs. A. Huchala was a recent vis-
itor to Calgary where she received
medical attention. She was accompa-
nied by her daughter, Mrs. G. McPhail.

**Looking Into the
Matter . . .**

You'll find that **EATON**
merchandise has depend-
ability as well as the kind of
dollar-stretching value
Canadians demand.

One of the reasons—an impor-
tant one—is the
EATON RESEARCH BUREAU.
Staffed by a group of chemists,
test analysts and technicians,
it checks the descriptions against
the goods described in the huge
Mail Order Catalogue. Nothing
is too small, nothing too large to
merit the Bureau's closest atten-
tion—a safeguard to seller and
buyer alike, and a very solid
reason why

IT PAYS TO SHOP
AT EATON'S

T. EATON CO.

EATON'S**TARDY TABLES**

Youngsters who have stayed up too
late at night and, consequently, are
tardy at table in the morning, may be
tempted to bolt their breakfasts. Nu-
trition authorities say that children are
likely to have more appetite if they do
not eat too soon after rising, and, any-
way, it isn't good to gulp down break-
fast— or any other meal.

Breakfast should be sufficiently
early, however, to permit every mem-
ber of the family to eat slowly and
thoroughly.

You can usually dodge a question
with a long-winded answer.

That annual illusion, now comes
the worst illusion of man, that a straw
hat tossed in a closet last fall will be
wearable in June.

John Buttle, of Blaimore, and
Harry Tomlin, of Frank, spent last
Saturday visiting friends in Leth-
bridge.

From now on, month by month

YOUR WAR SAVINGS CERTIFICATES

can be cashed!

THE payoff on War Savings Certificates has begun. If
you are among the thrifty people who own War Savings
Certificates, NOW is the time to look them over, sort them
out by months and as they fall due, endorse them and mail to
Ottawa as described on the back of each Certificate. A cheque
for the full face value of each Certificate will be sent to you in
due course.

But here is another suggestion...

Have the Royal Bank of Canada do all this "office work" and
sorting for you. Save yourself the bother of searching out the
right pieces of paper each month, endorsing them and mailing
them off to Ottawa.

Here's what you do: Bring all your War
Savings Certificates which you have at
home or in your safe deposit box, to
your nearest Royal Bank Branch. We will
put them in our vaults for safekeeping.

As the Certificates fall due, we will
cash them for you and deposit the full
face value (which includes interest) in
the savings account of the registered
owner, automatically. If you have no
account with us, we will open one for
you for this purpose.

The cost of this service, including safe-
keeping until your Certificates mature,
is low, as the following table shows.

SAFEKEEPING CHARGES FOR WAR SAV- INGS CERTIFICATES, INCLUDING AUTO- MATIC REDEMPTION WHEN DUE—

| | | | |
|----------|-----------------|------|--------|
| For each | \$5 Certificate | | 15¢ |
| " | " 10 | " | 20¢ |
| " | " 25 | " | 25¢ |
| " | " 50 | " | 30¢ |
| " | " 100 | " | 50¢ |
| " | " 500 | " | \$1.05 |

* If your Certificates are already lodged with
us for safekeeping, we will arrange for their
automatic redemption, as described above,
at a nominal charge of 5¢ per Certificate,
regardless of the face value.

REMINDER

Money invested in War Savings
Certificates is money you have
SAVED. The cash you receive
for them now gives you a great nest egg for the
future. Leave the proceeds from your War Sav-
ings Certificates in the bank, earning interest.
**WHAT YOU SAVE IS THE MOST IMPORTANT
PART OF WHAT YOU EARN**

**TAKE ADVANTAGE OF THIS
LABOUR-SAVING SERVICE. IT
IS AVAILABLE TO YOU AT
ANY BRANCH OF THE

THIS IS AN EMERGENCY ...let's treat it as such!

CANADA is heavily "in the red" in present
trading with the U.S. dollar area. In our total trade with the world we are in
a good position but not in that part which is done with U.S. dollar countries.
Other countries with whom we do business cannot pay us in full, either in
cash or in goods, for the things they buy from us.

This situation is made more serious than ever before because so many
countries, our regular customers, have not recovered from the war. It may
be some time yet before they get on their feet sufficiently to help put
things right. Meantime, we must find ways and means of balancing our
own books and reducing our U.S. dollar deficit.

There are two things we can do at the moment... cut down unnecessary
purchases from the U.S. dollar area and increase our production of goods
that can be sold to those countries to balance accounts. It's an emergency
and should be treated as such.

TO KEEP OUR INDUSTRIES HUMMING...OUR LIVING STANDARD

HIGH, WE NEED PETROLEUM,
COAL, COTTON, STEEL
AND SIMILAR ESSENTIAL THINGS

WE CAN PAY FOR THESE THINGS IF WE CURTAIL
OUR SPENDING ON IMPORTED NON-ESSENTIALS
OR TRIMMINGS . . . AT LEAST FOR AWHILE

YOU AS A CANADIAN CAN HELP

1. Do not order goods by mail from other countries... do not buy goods to bring
home when you travel outside Canada. See also item 2.
2. If you feel some purchase is absolutely essential, see your Collector of Customs
and Excise beforehand, to learn whether the item is prohibited.
3. Look for alternatives or substitutes for the items which are temporarily prohibited.
4. If certain goods seem to be in short supply, do not overlook the possibility that
it is seasonal, or merely a local condition, or perhaps brought about by entirely
unnecessary buying.
5. Be sure to obtain the Tariff Item Number from your Collector of Customs and
Excise before pursuing any inquiry. Quote this number in all correspondence.
6. IF WE TACKLE THIS PROBLEM IN THE SAME SPIRIT OF CO-OPERATION

HANG CLOTHING

Parents who have difficulty teaching children to be tidy and to hang up their discarded clothing, now have the support of the Department of National Health and Welfare. In a bulletin, the health authorities say that it is necessary to hang clothing which has been worn so that it will air thoroughly. Due to the perspiration and body odor worn clothing absorbs, this is a matter of health concern. The department also approves of frequent washing, pressing and brushing of clothing.

Bellevue Curling Club Prepare For Bonspiels

The Bellevue Curling Club is getting ready for two big Bonspiels, the CNP District 'spiel beginning Feb. 22 and the Second Annual Easter Bonspiel from Good Friday to Easter Monday, March 26 to 29 inclusive.

During the past few days, the last sheet of curling ice has been made ready. From now on, there will be eight sheets of artificial ice available

for bonspiels.

The district Bonspiel, supported by "Claret of Fernie, Coleman, Blairmore, Bellevue and Pincher Creek and prominent businessmen, limits its entries largely to curlers of these towns, though invitations are extended to a few outside clubs. This year a general invitation is extended to all former Pass residents to return for a few days curling and to visit old friends.

One month later, on March 26, the Easter Bonspiel will get underway. Begun last year, it was voted a great success. It is open to all curlers every-

where, we expect to receive visitors from outside towns. This Bonspiel is the annual highlight of the Bellevue curling season.

Entries for either or both events should be sent to the Secretary, Bellevue Curling Club, Bellevue; the fee for the District Bonspiel is \$10.00 per team; for the Easter Bonspiel \$12.00 per team.

The chief members of the committee in charge of both events are the president, Jim Fisher, assisted by Berni Beal in charge of getting ice in shape, Bill Duncan, in charge of hotel reser-

vations.

Curlers wishing hotel reservations are advised to apply as soon as possible.

WANTED—Horses for Fox Meat; 1c pound. Contact **JOE JACOB**, Hillcrest, Alta. [May 9-11]

SLENDER TABLETS are effective. 2 weeks' supply \$1; 12 weeks \$5; at Blairmore and Coleman Pharmacies.

On a heavy-duty job, give me new Advance-Design CHEVROLET TRUCKS and here's a "load" of reasons why.

Only Advance-Design CHEVROLET TRUCKS Have All These New and Finer Features:

- ★ Cab that "breathes"
- ★ Flexi-Mounted cab
- ★ Unifield, all-steel construction
- ★ Larger, more durable, fully adjustable seat
- ★ 23% greater visibility
- ★ New, rear-corner windows
- ★ Stronger, new frames
- ★ Full-floating hypoid and spiral bevel rear axles
- ★ Specially designed hydraulic truck brakes
- ★ Valve-in-Head 216, 235 and 248 engines
- ★ New, thorough sealing insulation
- ★ Standard cab - to - axle - length dimensions permitting interchange of bodies
- ★ ...and MANY more!

CT-148

Brother, how these stronger, new frames stand-up! Wheelbases are longer, too, for better load distribution. And the brakes are exclusively designed for greater brake-line contact.

A PRODUCT OF
CHEVROLET
GENERAL MOTORS

There's nothing like the cab that "breathes" for comfort! It's cushioned on rubber—Flexi-Mounted—with 12 inches more foot room and eight inches more seating space. There's 23% greater visibility, too, they tell me. The seat is fully-adjustable. Man, this is it!

*Fresh air heating and ventilating system optional at extra cost.

Here's a special, heavy-duty job and an extra-special truck! There's one made for your special kind of job.

Look—rear-corner windows! Now it's a cinch to back up without jack-knifing. Yes, sir, these trucks are brand new—really different with Advance-Design. And they're packed with power in the world's most economical engine for its size—Chevrolet's Valve-in-Head engine.

How to Prevent FIRES . . .

Most fire losses occurring, arise from causes easily preventable. You can reduce your probability of loss by attention to the following simple precautions . . .

1. Provide metal containers for hot ashes and prohibit the use of wooden receptacles.
2. Keep cellars closets and stairways free from loose wrapping paper or other highly combustible material.
3. Equip your property so that it is easy to turn off current when leaving electric irons and other heating appliances, even for a short time.
4. Use only good standard fuses and never permit the substitution of coins or wires for blown fuses.
5. Examine metal flues periodically and see that they are removed before they are badly weakened by internal rust or otherwise.
6. See that accumulations of soot are removed from your chimneys at least once in each year preferably before lighting fires in the fall.
7. Make sure that gasoline and other inflammable fluids, are kept out of rooms where there are open fires or flames of any kind.
8. Keep open lights (candles, gas) and portable electric heaters away from curtains or other inflammable material which may come in contact with them.
9. Keep your supply of matches in a closed metal receptacle and out of reach of the children.

FLU EPIDEMIC IN LOS ANGELES—Patricia Munsel, opera singer, has started what may become a habit in the Los Angeles area. She appeared in the city wearing a surgical mask, as ordered by her doctor, to protect herself against "virus X", a mysterious influenza germ that is reaching epidemic proportions. Miss Munsel will wear the mask until she leaves Los Angeles.

NOT ONE, BUT FOUR, GREAT-GRANDPARENTS—Odds against a child having four living great-grandfathers are huge, statisticians agree, but Michael Durban, 1, of Sarnia, has them. Here he is with mother, Mrs. J. A. Durban. Youngest great-granddaddy is Stephen Clark, 76, of Sarnia, seen holding Michael.

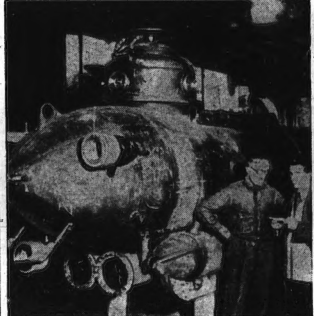

TWIN CITIZENS FOR CANADA—Refugee from Poland, Mrs. E. Sivak has arrived in Canada with her twins, Ita and Muchyn. Mary McKellar of the Red Cross is seen with them at Union station, Toronto. Widowed in a concentration camp, she was later married to Mr. Sivak, whose wife died in a camp.

TRAIN HITS REAR OF BUS, 26 PASSENGERS INJURED—26 bus passengers were injured in a level-crossing accident at Batawa, Ont., when it was in collision with a C.N.R. train. Bus was almost across the tracks with 40 passengers when the locomotive caught it at the rear, doing damage shown.

FLIES TO SAFETY—Archdeacon G. A. Andrew is one of nine Canadian missionaries of the Church of England who have been evacuated safely from areas of civil war fighting in China. He was flown from Chengchow to Shanghai. Evacuated from Kai-feng, capital of Honan province, on Dec. 30 were Rev. and Mrs. W. H. Simpson, Toronto; Rev. and Mrs. G. C. C. Scovill, Winona; Constance Williston, Bourlambaque, Que.; Frances Howard, Guelph; Greta Clark, Omshee, and Mae Coates, Toronto.

POCKET SUBMARINE READY FOR TESTS—This new Italian submarine, invented by Pietro Vassena (right), which will be tested on Lake Garda, in Italy, in the near future. The inventor claims that his craft can go down 1,000 metres below the surface. That is approximately 3,280 feet. Operations of the tiny submarine are controlled by radio.

"U.N. CAN SUCCEED"—MRS. F.D.R.—Mrs. Eleanor Roosevelt was guest speaker at a Rotarian club meeting in Kingston, Ont., attended by 1,500 students of Queen's university. She told of her experiences as U.S. delegate to the United Nations Educational, Social and Cultural organization and maintained her confidence in the United Nations machinery. Here she smiles as the microphone almost toppled.

OFFICIAL WELCOME FOR A NEW CANADIAN—Smiling new Canadian is three-year-old Jan Hawrylak, welcomed to his new home by Hon. Humphrey Mitchell, minister of labor, at the reception centre for displaced persons at St. Paul l'Ermite near Montreal. Jan came with his mother, who holds his hand, from a D.P. camp in Germany and has never known a home of his own. At left is a friend, Clawnes Mirdza of Latvia, who is going to Winnipeg.

ESKIMO GIRL IN ENGLAND—Happily playing in England with books and blocks given her is Rebecca, 15, Eskimo girl adopted by widow of Canon Turner, victim of an Arctic shooting mishap.

WELDING FOR UNCLE JOE—A gal who's getting along in the world is Alexandra Mitko, a woman welder, who is shown with her torch. She was recently nominated to the Odessa Regional Soviet by voters of the water transport election district.

DIRECTS ARAB RAIDS, AUTHORITIES BELIEVE—Grand Mufti of Jerusalem, Hajj Amin Husseini, said to be the "brains" behind Arab action to prevent partition of Palestine, chats with newsmen in Cairo. Britain "called for information" from Syria on the Palestine invasion of Arabs.

LOOKED AT MUZZLE OF ROBBER'S GUN—Mrs. Molly Sykes, shown with her son Allan, had a gun pointed at her and heard a thug's voice say: "I'll give it to you if you make a move." Mrs. Sykes is cashier of a bakeshop in Hamilton, Ont. \$425 was stolen from the bakeshop till. Spectators saw the robbery, but thought the gunmen's masks were the surgical type designed to stop the spread of germs.

TO ACCOMPANY U.N. PARTITION COMMISSION TO PALESTINE—In a move designed to add prestige and weight to the U.N. partition commission that will soon leave for Palestine, Arkady Sobolev of Russia, shown here with his wife and son, is to accompany the group. Sobolev is the U.N. assistant secretary-general.

OUR COMPLETE SHORT STORY—

AN OLD DOG

By ANNA E. WILSON

MR. CARRINGTON could tell by the sweetness of Clacie's voice that she was intent on getting her own way. She and Ted lived in the lower flat opposite him, and their young voices drifted in from the porch.

"No, there's no sense in inviting you—Aunt Sabina here for her holidays, Ted. The chances are she won't even give us a present—and that awful hat! What will the neighbors say?"

Ted's voice was unusually firm. "But, honey, Aunt Sabina's my nearest relative next to Ellie, and there isn't a kinder, better woman anywhere. She's always spent one week of her holidays with me and one on the farm. It's true, she's old-fashioned in her ways, but it's not much use expecting Aunt Sabina to change. It's pretty hard to teach an old dog new tricks."

And, thought Mr. Carrington, it's harder still to make a young dog forget the tricks he's already learned. He was thinking of Clacie and Ted.

It wasn't just Aunt Sabina—it was the time Ted had wanted to spend a week-end at the farm, and Clacie had wanted to go with the rich Mrs. Baird to the beach; her voice had been just as sweet and determined then. "But darling, Mrs. Baird is so rich. We'll be staying at the very best hotel and you know I always look well in a sun-bath."

"You look well in anything." But Ellie's voice had been adoring. "But Ellie'll be disappointed. I've been going down to help with the haying for years."

That had been three months ago, three months punctuated with little half quarrels in which Clacie invariably got her own way. But today Ted wasn't giving in so easily.

"The spare room's empty. You could get it ready for Aunt Sabina, and in the meantime," he kissed her, "you can be thinking of a few nice things to say."

A few days later Debbie Aldrich drove up in her big blue car and after the usual feminine bickerings, Debbie's rich voice drifted over. "It was good of you to ask me for a month, Clacie." And Clacie's feminine tremolo, "Ted will love me in this hat, Clacie. Wasn't it nice of you to remember just the color that suits me best?" Then, confidentially, "How I used to envy you your clothes at school."

Debbie laughed. "I hated them. It made me feel self-conscious to be better dressed than the other children, but Aunt Mattie was a dress designer and used me to advertise her clothes. When I left school, she put me in charge of the hat department. Oh, Clacie, I'm dying to meet your Ted."

The meeting must have been successful, for all at once Debbie and Ted's large comfortable laugh, Mary's rich contralto and Clacie's tremolo drifted up from below. Aunt Sabina seemed to be forgotten until one night Debbie went to a show.

"Now, Ted," Clacie's voice was smug. "you must admit that Debbie

is more fun than old Aunt Sabina. Those cute hats, and the car. People will think we're pretty important around here."

Ted struck a match and his pipe glowed. "You know, Clacie, I always liked Aunt Sabina's hat." He chuckled. "Always kept it in a paper bag when she wasn't using it." And then, irritably, "Say, honey, aren't we ever going to have anything to eat but creamed things? Was a time when we had steak and pie."

"Debbie likes creamed things," Clacie's voice had an edge to it, and just then Debbie came up on the porch and Ted aired his grievance. "Say, Debbie, don't you ever eat a good steak or something substantial? Clacie seems to think you live entirely on creamed things."

Debbie laughed her throaty chuckle. "Of course, Ted. Let's all go down to Ciro's and have a barbecue." But Mr. Carrington could tell that Clacie wasn't pleased, especially when Debbie began bringing home chicken and steak, laughing guiltily. "You know, Clacie, I just ran across it and thought it would be nice for Ted's supper with that special sauce you make."

More and more Ted and Debbie took to playing chess in the evenings and it must have been nearly time for Aunt Sabina's letter when Ted and Clacie had their first quarrel. Clacie's voice was acid and near to tears.

"It's the way she drags food in here as if we were paupers—and clothes. I'm sick and tired of her cast-offs."

Ted was placid. "She acts, honey, so why not let her help pay the bills?"

"We could have more—," Clacie stopped and Ted finished amiably, "if it didn't cost so much to go about with Debbie. Clacie, you've noticed how those cute hats she wears makes her hair look like pure gold?"

"I wish," said Clacie, venomously, "she'd choke on her hats."

"What do you want, honey. A girl can't complain when she gets just what she wants all the time. Used to be marriage was sort of co-operative. We got together and talked things out, but this marriage, as far as I can see, is pretty one-sided." Then, as Debbie pulled up in her car, "and that car, Ted, certainly does give an air to the place. Folks will be saying Ted Cromers must have robbed a bank."

Aunt Sabina's letter arrived on Saturday, just as Debbie and Ted were working out a chess problem. "Now that's too bad," Ted spoke indifferently. "I'll phone Ellie and have her write to Aunt Sabina right away to let Aunt Sabina know we're full up."

Clacie's voice was determined. "Aunt Sabina isn't staying the whole two weeks with Ellie, Ted. I phoned her we would drive down and pick her up tomorrow. Debbie's going to New York and we have room. Aren't you, Debbie?"

"An absolute must, Ted. They're having the fall showing two weeks early this year. See I've put you in check."

Ted's rich chuckle boomed out. "You saw my trouble right from the first," Debbie answered. "Of course, Ted, it was only a matter of giving out enough rope." They both laughed as Debbie put away the chess. Aunt Sabina went to bed at eight. Ted and Clacie were quarrelling over the chess man. Ted had the red ones, Clacie. You've had them three times running. I'm changing over for luck."

"But I want the red ones," Clacie's voice was determined.

Ted leaned back puffing out a big cloud of smoke. "How," he asked, placidly, "did you like Aunt Sabina's hat?"

It was very quiet until Clacie spoke in a small voice.

"Maybe we could take the red ones in turn, Ted. Marriage is sort of co-operative, isn't it? Sort of give and take."

Mr. Carrington chuckled. He had to admit that Aunt Sabina had looked real smart when she arrived in a brand new hat, and it was a good thing that he and Debbie had remembered to remove the label from Debbie's shop.

TO SEEK NATURAL GAS FROM ALBERTA REGINA.—An application will be made at the current session of the House of Commons for incorporation of the Western Prairie Pipe Line Company to operate a pipeline to transport natural gas from Alberta to Saskatchewan and Manitoba, the Regina city council has learned.

STRICTLY PRE-WAR BROCKVILLE.—When Mr. and Mrs. Charles Pryor, of Toledo, Leeds County, celebrated their golden wedding recently, the bridegroom, a retired farmer, donned the suit of clothes—still in good condition—that he had worn at his wedding.

Sixty-four Victoria Crosses were won by Canadians in the First Great War.

PUBLIC SEE VAMPIRE IN ACTION—Making its debut in a public demonstration at De Havilland airport, this new R.C.A.F. jet-propelled Vampire left spectators gasping as it whizzed across the sky at over 600 m.p.h. It is the first of 50 such craft that will be used in R.C.A.F. training. They are armed with four 30-mm. cannon and should be a nightmare for the anti-aircraft boys to catch. Giving their approval to the demonstration were Air Vice-Marshal Wilfrid Curtis, chief of air staff; Air Commodore A. R. Ross, chief of the air staff college, Toronto, and Air Vice-Marshal E. S. Middleton of Trenton R.C.A.F. station.

Western Briefs

MAPLE CREEK, Sask.—The Maple Creek Club has decided to hold a rodeo on June 28, 29.

RED DEER, Alta.—The city of Red Deer, Alta., will undertake a \$53,000 public works program in 1948.

THE PAS, Man.—New Orleans may have its shrimps a la creole and Boston its baked beans but north of 33 the national dish is beaver tail soup. And what could be more national for Canada than a steaming brew made from appendage of the dominion's well-known animal emblem.

NIPAWIN, Sask.—H. G. Diner, of Nipawin, Sask., has been awarded a \$30,000 contract for construction of a Bank of Montreal branch at Nipawin.

EDMONTON—Alberta government officials estimated that the province will collect more than \$1,500,000 from 1947 oil fees, rentals and royalties. Expansion of the Leduc sector of the Edmonton oil field was one of the major factors accounting for the high returns.

PENTICTON, B.C.—British Columbia Fruit Growers Association will ask the Provincial government to institute compulsory motor vehicle insurance. Annual convention here proposed that the premium be paid at the same time as driver and car licenses.

NAKUSUP, B.C.—Chincherinchee flowers—native to South Africa—are blooming in the home of Mr. and Mrs. Ralph Lillie here. The flowers continued to blossom into full whiteness after arriving here late in December at the end of a trip of more than 6,000 miles which took almost nine weeks.

Manitoba Farmer Uses Plane To Kill Wolves

VANCOUVER—At least one Manitoba farmer profits from the operation of Canada's flying clubs.

He takes to the air in a light plane of the Brandon, Manitoba, Flying Club, with a rifle by his side, and shoots wolves which threaten his livestock.

L. J. Rust, president of Brandon Board of Trade, said in Vancouver that this represented the enthusiasm with which Canadians are taking an interest in flying in the post-war period.

He says the spirit of adventure is still alive in the hearts of Canadian youth.

"I've never met a young Canadian here to take the bait," he said. "I don't want to learn to fly. After the war, we had just 21 clubs in the association. Today, we have 45."

Lloydminster Well Drilling Increased

Activity In "Poor Man's" Oil Region Increased By 300 Per Cent.

CALGARY.—Lloydminster, Canada's "poor man's" oil region, came into its own in 1947. Drilling activity increased by 300 per cent, compared with the former record year of 1946, while deliveries of crude oil increased by about 400 per cent. Lloydminster is a 35-mile long and up to 20-mile wide region containing to date four shallow oil pools, Blackfoot, Lloydminster, Lone Rock and Dina. The molasses-thick black oil (gravity range 10 to 20 degrees API, with bulk of production 15 to 16 API gravity) comes from sands in the Lower Cretaceous, at depths from 1,750 to just over 2,000 feet. Cost of drilling, casing and equipping productive wells averages about \$20,000. Dry holes, inevitable in the exploration and development of a field, can be written off to the tune of as little as \$7,500.

The combination of low cost drilling, development of a big oil reserve, and growing recognition of the value and uses of "black oil" made the Lloyd area the "poor man's" oil field.

The year 1948, it appears, will see a continuing of that expansion. The full data on December oil deliveries are not yet on hand, but it appears that the Lloyd area will show net oil deliveries of between 830,000 and 840,000 bbls. for the year 1947.

Don't skimp on vitamin A. Get some of your share by combining carrots and white sauce in carrot scallop.

BACK FROM DENMARK—Back from a three-month vacation trip to Denmark is Margaret Jacobsen, pretty Calgary school teacher, now powering up to disembarment from the S.S. Battery in New York. She visited relatives in Denmark.

USEFUL GADGET

RIMOUSKI, Que.—A citizen of this south shore town, Paul Dufour, said he has invented an indicator that will show on the dashboard of a motor vehicle, the amount of air pressure remaining in each tire. Dufour said he has received a patent right for his gadget.

What Kind of Men are Members of The Winnipeg Grain Exchange?

They are men of integrity who make their living by serving the interests of farmers by performing necessary functions in finding markets, storing, transporting, insuring, processing or financing the handling of grain. These men represent—

The "Pools"
The Co-operatives
Line and Country Elevator Companies
Terminal Elevator Companies
Railroad Companies
Vessel Owners and Agents
Chartered Banks
Flour Milling Companies
Merchants and Shippers
Importers and Exporters
Brokers
Commission Merchants
Insurance Companies
Insurance Brokers
Feed Grain Processors
Lake Shipping Companies
Ocean Shipping Companies
Processors
Stock and Bond Commodity Dealers.

Membership is an entirely voluntary affair, and is not confined to Canadians. There are members in every important city in Canada and United States as well as in London, Liverpool, Shanghai and Paris, representing the most important firms in the Grain Trade of the World. Any person of integrity, and financially responsible, may become a member.

Farmers are cordially invited to visit the Exchange during trading hours, 9:30 to 1:15 p.m. Ask to see the President or Secretary, or any member. Ask questions. Straight answers will be given.

All our members favour a floor price for wheat, administered by the Canadian Wheat Board. But they also believe that farmers should have the opportunity to get top world prices NOW, through open markets while prices are high.

The more farmers know about the Exchange, the better for all concerned. Meantime mail the coupon below for booklet explaining the Canadian Wheat Board Act. It explains how farmers are regulated and controlled in the Act's present form.

To The Winnipeg Grain Exchange,
Winnipeg, Manitoba.
Please mail booklet to which you refer above.

EVERYBODY'S BUSINESS

by
Don Graham

Why do some men achieve greater success than others?

The reason is not so much because some men have greater natural aptitudes and abilities, but because they have developed greater thinking power.

To learn to think, learn first to concentrate. This takes constant practice. All of us tend to be mentally lazy. When we try to think about any subject, our minds persist in wandering. So we must keep yanking our thoughts back on the track.

Practice thinking for 15 minutes every day about Canada's role in international affairs, television, how to improve radio programs, or any other subject you may choose. Stay with it and, if possible, reach some original conclusions.

You will find that, just as you can build muscle by exercise, so you can increase your thinking power. And you will have taken an important step toward greater personal success.

It may pay you to concentrate today on the subject of bringing your life insurance up to date. Your circumstances may have changed in recent years so that your insurance no longer meets your present needs. So re-adjust it periodically with the help of a good agent.

Danger Spots!

• Zero weather! Just when you most appreciate safe, comfortable transportation! That's when these 7 danger spots can cause you lots of woe — UNLESS you have the forethought to have them checked *before* they give you trouble. Prevention is better than cure. So bring your car in to our Service Department today. Then — with everything from battery to windshield wiper in perfect running shape — drive with confidence through cold and sleety days ahead.
